### ORDER

Sub:- Testing of meters required for net metering and solar metering for roof-top and small solar photovoltaic systems.

The matter regarding availability and testing of solar & net meters for net metering purpose for solar roof-top has been thoroughly discussed during the meeting on dated 14.05.2016 at Vidyut Bhawan, Jaipur which was presided over by the Energy Secretary in the presence of the officers of Discom, representatives of manufacturer firm Genus and Secure and solar producers.

It has been decided to manufacture to keep the 10, 30, LT/HTTVM solar & net meters in the lot of 25 or more which will be inspected by the officers of JVVNL. As & when any solar producer need the above meter, it will be ready available by the manufacturer firm.

In Ajmer Discom, as the NABL lab. remains busy all the time, therefore, such meters shall be tested at MT Lab. Udaipur.
