## ORDER

Presently PCC poles are being delivered directly from works of manufactures to sites on the demand raised by Sub- Divisions.

It is observed that large number of poles remain un- utilized in field at various locations after completion of works with no further use.

For new locations in Sub- division / Division / Circle, demand for fresh poles is being rasied by Circles again in spite of un-utilized PCC poles lying at other locations. This not only causes un-necessary financial burden to Nigam but also there are chances of being misused by miscreants for illegal lines etc.

It is therefore, decided that such un-utilized poles be got transported on CLRC provisions for utilization at new location first before demanding fresh lot of poles for which Circle SE's are empowered / authorized.

The Feeder In-charge of the sub- divisions are made responsible to intimate locations every month where such un-utilized poles are lying. During sudden checking, if it is found that PCC poles are lying un-utilized since long, disciplinary action shall be taken against Sub- Divisional In-charge (i. e. AEN).

Similar provision shall also be applicable for other un-utilized stores / material at site like Cable, Conductor, Steel items etc.

Non compliance of instructions shall be viewed seriously.

This bears approval of Hon'ble Mananging Director.

By order

(Dr. R.P. Gupta)

Chief Accounts Officer (IA)
